**1 Review of performance**

For the quarter ended on 28 February 2015

The Group recorded a pre-tax profit of RM1.5 million (0.60 sen per share) for the first financial quarter, which was in line with the pre-tax profit result (RM1.5 million) achieved for the corresponding quarter of the previous year. The result for the 1QFY2016 was largely achieved on the back of steady construction progress for all on-going projects in the Group's property development division. Revenue for the quarter decreased 22.3% to RM36.2 million from RM46.6 million recorded for 1QFY2015. This decrease was largely due to a decline in revenue in the property construction division.

Property Development Division

The property development division recorded a RM2.9 million increase in pre-tax profit to RM2.0 million for 1QFY2016. This compared to a pre-tax loss of RM0.9 million for 1QFY2015. Over the period, revenue rose to RM26.0 million from RM19.1 million. This was due to improved sales take-up rate and steady construction progress of all on-going projects. The pre-tax loss of RM0.9 million recorded last year was due to expenses associated with a one-off major branding exercise to promote the company nationally.

Property Construction Division

The property construction division posted a lower pre-tax profit of RM397,000 for the quarter. This compared to RM1.5 million for corresponding quarter in the previous year. The pre-tax profit result reflected a decrease in division revenue from RM24.0 million last year, to RM6.5 million, due to one of its major construction projects reaching completion.

Chalet & Golf Management Division

The chalet & golf management division recorded an 8% rise in revenue to RM3.2 million for 1QFY2016, from RM3.0 million for 1QFY2015. As a result, its pre-tax loss improved from RM975,000 last year to RM535,000 in the quarter under review. The improvement in performance was due to growth in both room sales and F&B sales as well as on-going cost rationalisation.

Others

This segment recorded a pre-tax loss of RM340,000 for the quarter, compared to a pre-tax profit of RM1.9 million for the corresponding quarter last year, despite both quarters recording a similar revenue range (between RM500,000 to RM550,000). The better result posted for 1QFY2015 was a result of a revaluation of some assets within the Group's property portfolio.

**2 Variance of results against preceding quarter**

The lower pre-tax profit of the Group for the quarter under review compared to that of the previous quarter (1QFY2016: RM1.5 million vs 4QFY2015: RM5.8 million) was largely due to the completion of some of its higher profit margin projects toward the end of the last financial year. This was reflected specifically in the results of property development division which recorded a decrease in pre-tax profit from RM6.6 million in 4QFY2015 to RM2.0 million in 1QFY2016 due to the staged nature of our project pipeline.

**3 Current year / future prospects**

The operating environment for the property industry remains challenging due to continuing uncertainties in the global economy, coupled with the weakening of the ringgit which has added additional uncertainties in the domestic market on top of the flow-on impacts from the recent introduction of the GST.

Despite these challenges, the Group remains on track to post satisfactory results for FY2016 based on its pipeline of on-going and upcoming launches, particularly the Group's first two major residential projects in Kuala Lumpur. These two projects combined with the Group's diversified mix of high-end and affordable residential projects in northern Malaysia underpins its on-going strategic focus to deliver quality homes to range of market segments, manage costs effectively and efficiently, while continuing to plan carefully for new projects and launches.

**4 Profit forecast**

There were no profit forecasts or profit guarantees for the current financial period to date.
